In FASHION now

It is no longer fashionable to accept a drab, unbecoming color of hair just because it is natural. Hair color is the thing of the day, and is accepted as part of make-up, just as lipstick or fingernail polish.

There is one thing that you must keep in mind if you are thinking about coloring your hair — always get the very best. If you can't afford the best or can't go where you can get the best, it is wise to make out with what God gave you.

Never go in for drastic change. This is always a mistake. The color is usually not flattering, and the time and money involved to keep it right is consuming. Choose a shade or two shades lighter or darker than your natural color. If you are over 25 you will probably find a lighter shade more becoming.

So much progress has been made in the field of hair coloring that coloring can be done safely with no damage to your hair or scalp at all.

There are many tricks to give personality to otherwise dull hair besides complete coloring. The latest, and one of the most attractive, is "sunstipping." This is done by putting a tight rubber cap on the head. With a small hook bits of hair are pulled through tiny perforations and bleached the desired color. The effect, when done as described, is natural, and we think, becoming.

Junior Chamber Announces Search To Select Area's Top Farmer

Who is this community's most outstanding young farmer? That's the question raised by a new Junior Chamber of Commerce project, now in the planning stages, according to Dick Wingfield, president of the local Jaycee group. Very soon a community-wide search will begin, with the public asked to nominate any farmer aged 21 through 35, who is making outstanding progress in his agriculture career, is practicing soil and natural resource conservation, and who maintains a consistent contributory role in community improvement and affairs.

Purpose of the search is to increase public understanding of the farmer and his problems and to create, through example, more youth interest in farming as a profitable and satisfying career.

Numerous awards will be made to the community winner and runners-up. Winner will be entered in the state judging and may win an all-expense trip to a national awards program in Cedar Rapids, Iowa, next April.

Nomination forms will soon be available from the Junior Chamber and at other locations in town, according to [illegible], chairman, Outdoor Improvement Project.

Bethany Pentecostal Holiness Church
A very inspiring play, "Along Came Christmas," will be presented at the Bethany Pentecostal Holiness Church on Sunday night, December 21, at 7:00 o'clock.

Students coming home for Christmas vacation invariably see their parents just long enough to say "Hello" and "Goodbye" before they dash off "with the gang." In this play, the parents beat their children at their own game by stepping out before the youngsters had a chance to even say "Hello."

Those youngsters learned a lesson, they will long remember.

Everyone is cordially invited to attend this play. We would love to have you visit us.

—D. L. LeRoux, Pastor.

CHRISTMAS PLAY AT TRINITY METHODIST CHURCH THIS SUNDAY NIGHT

"The Miracle," a Christmas play by June E. Kroenke, will be presented at Trinity Methodist Church on Sunday, December 21, at 8:00 P. M.

There is a warm and human quality to this play, and the Christmas message is presented in an effective manner. Although they are sisters, Amy and Martha, two elderly ladies, are very different in disposition. The years have left Amy sweet and kind, while Martha has become selfish and irritable. On this Christmas Eve Amy looks forward to the holiday with happy anticipation, but Martha will be glad when it is over. When friends drop in and Amy reads the Christmas story from the Bible, Martha falls asleep. In her dream she sees the manger scene, and awakens a changed woman, her love of Christmas and of her fellowmen restored in a miraculous way.

NEWS FOR VETERANS

A greater percentage of Korean veterans are expected to purchase homes through VA-guaranteed mortgages than did veterans of World War II, VA indicated.

With more than six years remaining in which to apply for home loans before their deadline on February 1, 1965, VA says 10.8 per cent of the eligible Korean veterans have already availed themselves of their loan guaranty privileges.

This figure was reached in spite of the fact that the average Korean veteran came out of the service younger than his counterpart of World War II, in most cases was single or, at least, had not started a family, and in general was less disposed to take on serious financial responsibility.

WINTER GOOD TIME TO CUT TIMBER

Winter is a good time to cut timber, say specialists at VPI, because it will season more slowly at this time of year and with less cracking than during the summer months.

The seasoning process counts a lot when it comes to getting top value from posts, poles and logs.

Insects and fungi which attack freshly cut wood are less active during the winter. If cut in the winter, the wood will be seasoned and less susceptible to damage by the time warm weather arrives.
